

CampScripts.com Instructions for Parents

Dear Parent,

To ensure the best possible quality of care in our health center, we require all campers who take prescriptions, supplements, vitamins and/or over-the-counter medications to enroll in a pharmacy service provided by LTC Scripts through their website www.campscripts.com. This service ensures higher efficiency, lower risk of error, reduced waiting time for your campers, and increased focus on their overall health.

We do expect 100% participation from families with campers who will need medication while at camp. The only exception is if the pharmacy notifies us that they are unable to accept your insurance or fill a particular medication. (Please see below on what to do if this applies to you.)

Please register online at their website. They will package your camper's meds and deliver them directly to camp prior to your child's arrival. All pills will be pre-packaged in dose/blister packs. LTC Scripts will manage every step of the process, including insurance payments, dispensing and delivery.

Please follow the following instructions:

- Register online at their website **www.campscripts.com** using the Camp ID provided by the camp.
- Create your account and complete your camper's medication profile, select the session s/he is attending, upload copies of your prescription card, and provide a credit card for payment of any fees.
- Please print the **Medication Order Form** and **Physician Letter** and take it to your child's physician.
- Please review the **Parent FAQs** on how to submit the prescriptions.
- After submitting the prescriptions look for an email confirmation from the pharmacy.
- Please add **info@campscripts.com** and **info@ltscrippts.com** as safe address so as to receive email communication from the pharmacy and avoid important communication from going into junk mail.
- You can also check the status of your child's prescriptions by logging on to your account and clicking on the **status** tab on the dashboard.
- If you have not received a confirmation email from the pharmacy about your child's prescriptions or don't see any prescriptions listed under the status tab within seven days of submitting the prescriptions please contact the pharmacy immediately at 844-572-7478

All medication orders must be received 30 days prior to start of the session. All orders after that will incur an additional \$30.00 late charge plus any expedited shipping charges.

Please see the attached FAQ sheet for questions about as-needed meds, unusual supplements, liquid medications, controlled medications and more.

If you have problems submitting any of your forms, documents, or insurance information, please call the pharmacy directly at (844)572-7478.
